

Startup Grind Education

Building the Next Generation of Israel's Tech Leaders

Our Vision

To connect the next generation of Israeli Entrepreneurs, igniting the entrepreneurial spark in high school students across Israel, creating a nationwide community that connects them to the world's leading startup ecosystem.

The Opportunity

High school students represent untapped potential in the entrepreneurial world. By providing them with early access to the tools, mentorship, and experiences that shape successful entrepreneurs, we empower them to become confident, capable and inspiring leaders who will drive innovation and growth.

The Value

For High School Students:

- Direct access to Israel's tech and startup ecosystem
- A powerful national and global innovation network
- Empowering the next generation of community leaders
- Real-world leadership and operational experience
- Recognition and growth on a national and global stage

Shaping Israel's Tomorrow, Together

Join us in creating a thriving community where Israel's most promising youth gain vital experience and the knowledge to turn their ideas into reality through our SGe Community.

Our Founder View

Leveraging 12 years of helping Startup Grind grow into a global community and leading its Israeli chapter, founder Shahar Matorin created **SGe** as the essential platform for preparing the country's next generation of high school leaders using his unmatched global super-connector, network, Community Leadership and Ecosystem Building.

What We do

Direct Tech Access

Students gain direct access to Israel's tech leaders and innovative companies within the startup ecosystem.

Powerful Network

Become part of a powerful Tech innovation network that spans both Israel and the global stage.

SGe Ecosystem Advantage

We empower future community leaders, providing the tools and resources needed to thrive within the startup ecosystem.

Elite Training

This elite training empowers community leaders to inspire and mobilize students, collaborating to build a flourishing startup community in their city

National & Global Recognition

We provide opportunities for students to gain national and global recognition while fostering significant personal and professional growth.
